ABOUT US

our history

JPJ Consortium was established to service the engineering, manufacturing and mining sectors with quality products and complement services. Being sole agents of established brands, we bring these first-in-Botswana, niche products to our customers. By being registered as PPADB supplier, we also focus on supplying government.

Poised to service the Botswana local market as well as surrounding SADC countries. With the intention to start local manufacturing of nominated products and contribute to local economy to form part of Botswana's larger development plan. Our main focus is to adapt to the business needs of our clients and deliver outstanding quality and value for money. All the while, focusing of skills development and knowledge transfer to Botswana's citizens.

our mission & vision

Our daily action towards fellow colleagues, customers, suppliers and the environment are strictly driven by our mission statement elaborated below with our Code of Conduct

We strive towards **Togetherness** all the while treating each other with respect. We understand our **Responsibility** towards each other as well as towards our customers. We deliver quality products and services at all times. We keep our promises - we are **Reliable**. We strive to conserve natural resources and avoid actions that might pose a risk to the environment. We will be **Environmentally aware**. We will continuously expand our professional expertise and the **Development** of innovative products as well as services. We aim to share our knowledge and participate in the development of local communities in grass root training programs. We will identify changes and challenges early on and adapt effortlessly to all best suit the individual needs of our customers. **Flexibility** is key in our success to always deliver excellent customer service and going further than the competition. No matter how big or how small the job. No matter the distance and the challenges we might face.

JPJ Consortium is Engineering Supplies Made Easy.

PRODUCT RANGE

Split and Non - Split Seals

For large diameter

- Bearings
- Gearboxes
- Fans
- Motors

Gaskets

Non-Metallic gasket sheets

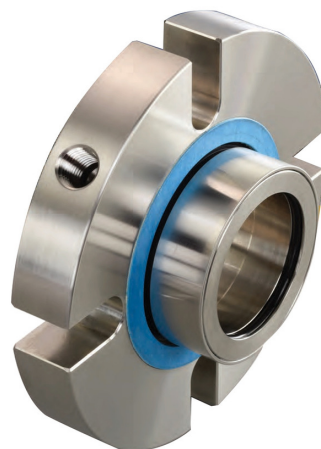

- Compressed Fibre Gasket sheets
- PTFE and reinforced Gasket sheets
- Graphite and reinforced Gasket sheets
- Cut Gaskets
- Tape Gaskets for large diameter

Metal and Semi Metal gaskets

- Fishbone Gaskets -World Wide Patent
- Ring Joint Gaskets
- Spiral Wound Gaskets
- Kammprofile Gaskets

Mechanical Seals

- Single Cartridge Seal
- Dual Cartridge Seal
- Flat Face Mechanical Seal
- Balanced Component Mechanical Seal
- Unbalanced Component Mechanical Seal

PRODUCT RANGE

Packing

- Carbon Fibre
- PTFE Fibre
- Aramid Fibre
- Ramie Fibre
- Graphite Fibre
- Phenolic Fibre
- Safe Cut Packing Systems

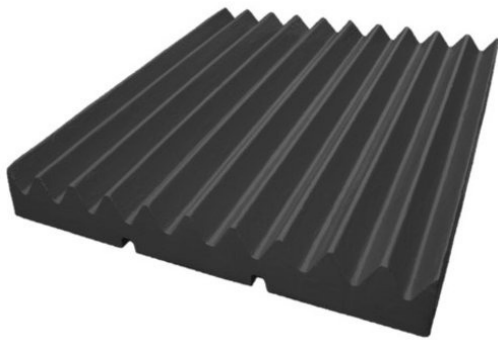

Replacement Liners (Wear Parts)

Our comprehensive range of wear parts will optimise your mineral and aggregate sizing and crushing operations

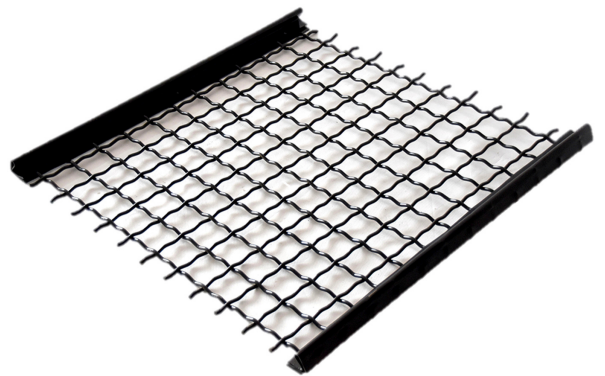

We offer high quality metallurgical designed liners for all types of Primary, Secondary, Tertiary and milling operations

- Cone Crusher liners
- Jaw Crusher and Swing liners
- Impactor Crusher Blow bars
- Shredder Crusher liners

Crusher Screens

- Woven Wire Screen Solutions
- Frames
- Screen Panels

Disk Springs

- Disc Springs for Chemical Environment
- Disc Springs for Standard Environment

PRODUCT RANGE

Idler Rollers for conveyers

We offer the full range of idle rollers. Highest quality with SABS certification

- Steel Rollers 57-152mm
- Impact Rollers - Rubber lined 133 - 159

Hydraulic Equipment

Hoses, Tubes and Connectors

- Hydraulic Hoses
- Metal Hoses
- Compensators
- Coiled Hoses
- PTFE Hoses
- Bellows
- Hydraulic Tubes
- Fittings
- Couplings and Adaptors
- Flanges
- Clamping Ring Connectors

Seals

- Seals
- Tube Clamps
- Slide Bearings
- Ball Valves and Gauges

Anti Rust Coating

NanoRustX Coating

- No Sandblasting
- Fast Application Process
- Safe for Employees and the Environment
- Can be applied to rust, galvanized, painted/ unpainted steel, aluminium & concrete

PRODUCT RANGE

Degreaser, Penetrating fluid, Galvanizer and Anti-Seize

- Anti -Seize
 - Copper
 - Metal
- Weld anti-spatter
 - Wet
 - Dry
- Belt Dressing
- Penetrating Fluid
- Tapping Fluid
- Cutting Fluid
- Wrap Seal
 - Ultra quick, active pipe leak repair up to 10 Bar
- Degreasers

Food grade Lubricants

All of our food grade lubricants is NSF H1 and HACCP registered for where there is a potential for incidental food contact. Offered in Grease, Fluid and/or as Aerosol cans

- Compressor Oil
- Food Machinery Grease
- Gear Oil
- Chain Oil
- Hydraulic Oil

Thermo Protection Coatings

Tempcoat

- Thermal liquid insulation coating
- Easy application process
- Works on piping, air vents cryogenics and condensation control
- Range from -66.2 C to 176.7 C

PRODUCT RANGE

Rubber Hand Build Mining Hose

We offer the full range of hand build mining hose for slurries and water conveyance. Built to the customer's needs.

- Rubber Hand Build Mining Hose
 - Cuffed Ends
 - Flanged Ends
 - Shouldered Ends
 - 3" (80mm) to 24" (600mm)
- 85 Bar Concrete Placement Hose with screwed or shouldered ends
- Liners available in
 - 3mm
 - 6mm
 - 9mm
 - 12mm
- 85 Bar Concrete Placement Hose with screwed or shouldered ends

PVC and Layflat Mining Hose

PVC Mining Hose

- 1/2" to 2" in
 - Light Duty
 - Medium Duty
 - Heavy Duty

Layflat Mining Hose

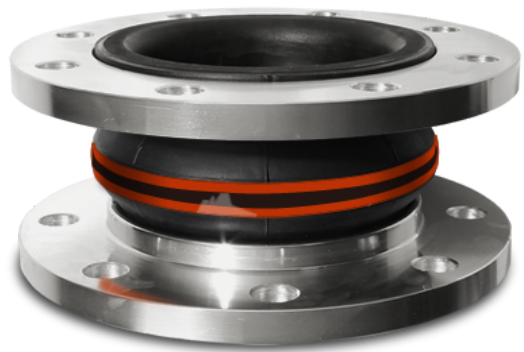

- Convey water and light slurries
- Liners available in
 - 3mm
 - 6mm
 - 9mm

Rubber Bellows and Pinch Valves

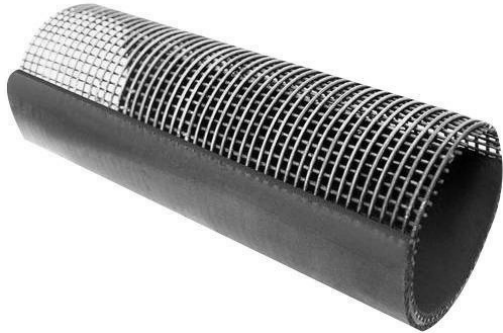

Rubber Bellows

- 3/4" to 24"
- Single and Double Sphere
- Mild Steel or Stainless Steel Flanges
- Stainless Steel Bellows available on request

Pinch Valves

PRODUCT RANGE

Steel Reinforced HDPE Fusion Weld Pipes

Steel reinforced HDPE pipe suitable for low to high pressure water and light slurry applications. Fusion Weld coupling technology for quick and easy installation.

- Diameter: DN50 - DN600 mm
- Pressure: 1.0 - 4.0 MPa
- Guaranteed 50 years below ground and up to 30 years above ground
- No creeping

Light Weight Portable Welding Machine

- Pre-programmed settings to avoid operator errors.
- Fuses within minutes, greatly reducing cooling down time
- Lightweight and Durable
- Battery operated
- Versatile for multiple pipe sizes

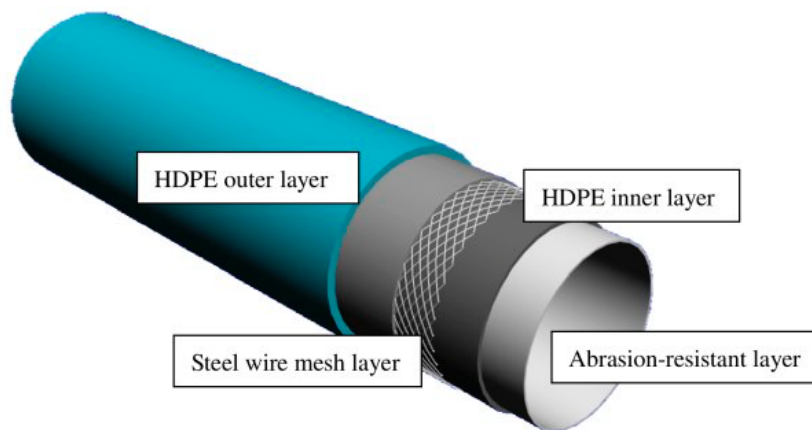

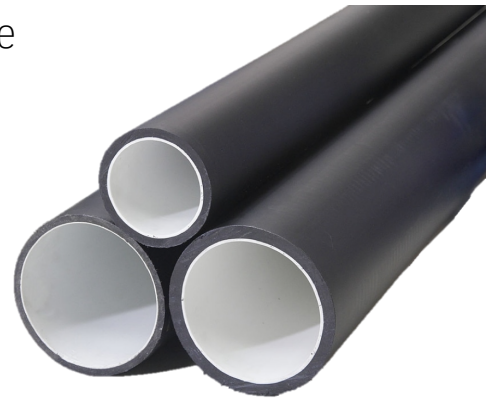

PRODUCT RANGE

Anti-Abrasive Polyolefin line HDPE Pipe

Polyolefin lined HDPE pipe which is molecularly bonded and steel reinforced to create a super anti-abrasive and durable pipe.

- To be used on highly abrasive slurries
- Diameter: DN50 - DN600 mm
- Pressure: 1.0 - 4.0 MPa

High Quality HDPE Idlers

- Conveyor belt friendly, no belt damage as it wears down
- Deep tapers creates maximum water displacement
- Triple Seal Design ensures bearing remain dust and water free
- Light weight and free spinning, offers lower power use during conveyor belt start up
- CMI HDPE material is injection moulded, offering better wear properties than an extruded HDPE
- Bearings are 100% aligned, prolonging idler lifespan
- Prior to delivery all idlers are tested to ensure free spinning and working condition

PRODUCT RANGE

Specialised Safety Equipment

- Fall protection
- Chemical Suits
- Cut Resistant Clothing
- Fire Resistant Clothing
- Welding Protection

Arc Protection Switching Gear

- Up to 100 cal/cm²
- Suits, Head Gear, Gloves, Boots
- Electric Sticks and Rescue Hooks
- Static Discharge Hooks

CAT[®] Safety Boots

- Steel Toe
- Non-slip and oil resistant Soles
- All sizes available on request
- Conforms to EN ISO20345:2011 Safety Footwear Standards
